What is Aging in Place Remodeling?

Aging in place remodeling involves the adaptation of a home so that it's safe and manageable for a person to live in regardless of their physical or age limitations. Some modifications like installing grab bars in the bathroom are straightforward while other aging in place remodeling projects take time, planning, and investment.

Simple Projects

Handholds, Lever-Style Door Knobs, Rocker Panel Light Switches, Visible Street Numbers, Window Tint, Depth Perception Aides, Motion Activated Night Lights, Non Slip Adhesives, Storage Solutions, Threshold Leveling, Water Leak Detectors, Electrical & Data Cord Management, etc.

Complex Projects

Entrance Ramps, Wheelchair Accessibility, Walk-In Showers & Tubs, Kitchen Cabinet Accessibility, ADA Height Toilets, Lever-style Water Faucets, Bidets, Bed Trapeze, Door Widening, etc.

Smart Home Projects

Outdoor Security Cameras, Video Doorbell, Smart Plugs, Automated Lighting, Smart Locks, Connected Thermostats, Mechanical Locks, etc.
